

## Immunization Policy

By law, children in California are required to receive certain immunizations in order to attend public and private elementary and secondary schools. Schools are required to enforce immunization requirements, maintain immunization records of all children enrolled, and submit reports. Homeopathic preparations or homeoprophylaxis are not considered vaccines by the federal Advisory Committee on Immunization Practices and so do not meet the immunization requirements for entry to California schools.

For more information on regulations, you may visit the state's website, [shotsforschool.org](https://shotsforschool.org). If your student needs a medical exemption visit the state's website, [CAIR-ME. Instructions to Request a Medical Exemption](https://cair-me.org/instructions-to-request-a-medical-exemption). The request process is quick and easy and can be done from your mobile device.

### **Required Immunizations entering PRE-KINDERGARTEN (Preschool Programs) include:**

- Polio
- DTaP
- MMR
- HiB
- Hep B
- Varicella (chickenpox)

### **Required immunizations entering TK/Kindergarten through Grade 12 include:**

- Polio
- DTaP
- MMR
- Hep B
- Varicella (chickenpox)

### **New Students and First Doses \***

New students must have their first doses of the above vaccinations, with no more due, to start class. Subsequent doses are due based on the State's timeline (a delayed schedule between you and your physician cannot be accepted in the State of California).

Summerfield Waldorf School & Farm complies with all California vaccination and reporting laws and encourages parents to make informed vaccination decisions in partnership with their family health care provider. The school operates under California Health & Safety Code 120325(c), in which the legislature

provides “exemptions from immunization for medical reasons.” Assembly Bill (AB) 2109 requires documentation that healthcare practitioners have informed parents about vaccines and diseases.  
 \*Requirements vary depending on the age and grade of the entering student.

In the case of an outbreak, children who are not fully immunized may be temporarily excluded from attending school. More details are available at the website: [shotsforschool.org/laws](https://shotsforschool.org/laws)

Please contact our [Registrar](#) should you have specific questions about immunizations.

1. Three doses of polio vaccine meet the requirement if one dose was given on or after the fourth birthday. If polio #3 is the final required dose, polio #3 should be given at least six months after polio #2.
2. If DTaP #3 is the final required dose, DTaP #3 should be given at least six months after DTaP #2, and pupils should be excluded if not given by 12 months after second dose. Three doses meet the requirement if at least one dose of Tdap, DTaP, or DTP vaccine was given on or after the seventh birthday. One or two doses of Td vaccine given on or after the seventh birthday count towards the requirement.
